No Limits!

Experience Energy Sessions with Unlimited Outcomes!

A Guide to Maximize Your Sessions!

Here Is The Place To Get Help With Your Health, Business, & Personal Growth. Those who find their way here are often seeking to unfold their life mission and need help with issues blocking their way. I help you go beyond to access information and outcomes that were not previously available to you. I act as a catalyst to help you naturally resolve complex issues into solutions you have yet to imagine.

Certified, Qualified, Experienced. I am a facilitator of people and healing. I have combined years of study, degrees, practice, trainings, and certifications with my innate gifts to create a powerful result-based approach that allows you to experience unlimited possibilities in an easily accessible way. I am an ANMCB board certified Naturopathic Doctor* and hold a Master of Theology with emphasis in Spirituality and Holistic Health from Holos University Graduate Seminary. I hold a BS in Human Ecology from Ohio State University, state educator licenses, certifications in energy medicine and energy psychology methods as well as training in remote viewing, intuitive work, and *The Law of One*. In addition to my training and experience, I also bring a new healing paradigm of Global Spiritual Transformation called Nous-Based Healing, NBH©. I only draw these credentials to your attention because I want you to be aware and realize that you are in the good hands of an experienced, well-qualified International Intuitive Consultant, Healing Arts Professional, & Visionary Mystic.

My Cutting-Edge Work is a One-of-a-Kind, Root-Cause, Result-Based Approach with Great Outcomes!

Sessions are done at a scheduled time from my dedicated office space via Phone/Skype.

Which Clients Benefit? The best candidates for partnering with me and the ones who experience the greatest results in my Intuitive Consultations, Healing Work, and Visionary Innovations are those who come with the intention to move forward and a strong desire to participate in their own process. They understand they are engaging in a physical-emotional-spiritual reorganization that takes place on a multi-dimensional level that unfolds itself in a natural way. These clients most often achieve their goals of health, well-being, and personal/professional growth and freedom.

Our Sessions Are More Than Linear Clock Time. This mutually catalyzed work includes inter/intra-dimensions and the time/space, space/time continuum. The work we do together continues to unfold to its own natural plateau, and may later continue again to another upward integrative spiral. You may experience an initial observable impact, or the subtle unseen energetic levels according to the priority of your body-mind-spirit.

As a Facilitator of People And Healing, I help you evoke and bring forward that healing in your life goals.

What I Can Do For You - My Scope of Practice: I work at the energetic level making phone and distant sessions as powerful as, or as my clients say, more powerful than in-person. I work with you holistically rather than symptomatically whether it is for health, life, or business. My clients experience many wonderful results.

Note: I am not a replacement for the allopathic medical community and what they do for your body. They diagnose, treat, and prescribe for diseases and illnesses. Please refrain from asking me to do this if you have come for health issues as it is out of my scope of practice. I am a complement to their work, and my brochures are in a number of their offices.

Most Issues That Are Bothering You are Candidates for Energy Work, and often resolve quite nicely when your body-mind-spirit is ready. Your issues, whether business, finances, familial, emotional, or physical are just a label of a current expression of a temporary situation.

Our Beliefs Become our Biology. There are no limits to what we can do and expect in our lives!

Note: Some clients, no matter what they say, do not want to move forward in their life, whether it is in their finances, life mission, or health issues. They wish to stay where they are due to secondary gains such as disability pensions, getting attention, not wanting to work, or take responsibility for themselves, etc., and no amount of money, or any kind of intervention is going to unblock them or bring them back to wholeness. Some clients arrive here with complex issues, feel overwhelmed, hopeless, discouraged, and not sure they can be helped; and yet they are often the ones to experience great outcomes!

Each Client Approaches Their Sessions Differently. Some clients have a series of sessions back-to-back, and some space their sessions farther apart. Some work with me during the same time period they are working with others so I can help guide them to achieve their best results. If you choose to use multiple energy practitioners, please make sure their approaches are synergistic, resonate to your highest good, and enhance and mutually support your goals. A good practitioner will be interested in all that you are doing and seek to support you. Those who have limited belief systems may not be the best choice for the outcomes you are seeking.

Why Are There Dramatic Results And Sometimes Not? I have seen many people have dramatic results during and after a session. Even though I have seen many “3 minute miracles”, additional sessions may be needed to undo what the body-mind-spirit has accumulated over the years. Fortunately, we are smart beings, and **once we make the decision to move toward change, we frequently experience rapid results in all areas of our life!**

Healing and Change Happen When Conditions Are Right For You. Reintegration, resolution, and relief for your business, finances, life, health, or wellbeing can only be realized when the time is right. It helps you to be willing to let go of old issues and beliefs, and to set an intention of expectancy of great results. This can only raise your vibration, strengthen your intuition, and help you get more quickly to great resolutions.

Energetic Work Often Occurs Outside Of Clock Time With A Cumulative Type Action And Response. Please honor the process and realize that results are a confluence of skillful means on both our parts. The work I do is greater than a calendar date and time. Please set your expectations with this consideration in mind. I will do my best to keep our appointments on schedule and I know you will too. It may be necessary to schedule a follow-up session if time runs out.

Etiquette! Please be aware that requesting free intuitive consultations about health, business, people, animals, or situations creates an energy imbalance for both of us and is inappropriate. Kindly book a session for your questions or to discuss your research, findings, and theories.

Absentee Sessions Are A Special Perk Just for My Clients because of the great outcomes they experience, and because they are as powerful or more powerful than in person. Absentee sessions are an efficient way to clear out issues while you go about your life. They can be used in place of a phone/Skype session, or between sessions to speed up the process with yourself, with children, loved ones, friends, and companion animals.

Get Started! An Unprecedented Opportunity to get rid of the discordant energies we live with and the blocks that prevent us from manifesting a joyful, healthy, and creative life.

My Clients Also Receive One Free Year of "Client Insider Tips" to facilitate our work together.

After Purchase, You will Receive a Scheduling Code In Your Email to use to make your appointments online. The first time you schedule online you will see a link to a special Client Page that has information to help you get the most from your sessions.

“Leah is profoundly appreciated as a mentor and teacher by those who seek her assistance and guidance. Few practitioners draw on such a wide range of healing approaches, so each client’s experience is uniquely suited to their level of awareness and needs. I recommend Leah as a compassionate, skillful facilitator of well-being and optimum health.” — Cay Randall-May, Ph.D., Consultant and Medical Intuitive (ABSMI)
